

Traditional

WINDOWS, DOORS & CONSERVATORIES

What you get from us

Top Grade PVCu: We only use Virgin Polymer for our PVCu.

The European Committee Standards: State that Grade A PVCu must have an outside wall thickness of 2.8mm. Traditional windows wall thickness is 3mm which offers superb frame strength and rigidity that will last for years

Re-Enforced: All windows & Doors are fitted with Thermal or metal Reinforcing inside the frames and sashes, Special stainless steel jacking pole to bays and steel in doors. This will increase the strength of the window and the performance.

Internal glazing: All windows & doors in the Imperial range are internally glazed only. So the glass can only be removed from inside the property (Not from the outside).

Sealed double glazed: Units 28mm double glazed units with Low Energy soft coated glass filled with argon gas and fitted with warm edge spacer bars as standard.

Real Stained Glass: We offer a full range of triple ~zed real stained coloured glass. We can copy your existing stained glass or design something new, it's up to you.

Bevelled glass: We offer a full range of Bevelled glass to complement your windows and doors

Lead light Designs: We offer a full range of leaded light designs, Edwardian, Queen Ann, Diamonds leads are just a few of what we can offer you.

White Georgian bars: For those who are looking for that Georgian look see what our white Georgian bar can do for your new windows and doors. For external Georgian bars see our Evolution page.

Safety glass: We install Toughened safety glass to all doors, and where required by building regulations to windows.

Fire escape hinges: One to every bedroom. These are to side opening windows and can be push to a full 90 degree opening to give a good means of escape in the unfortunate event of fire

Multi-point locking: All windows and doors to installed with a unique multi-point locking system that has been designed to fit the Imperial range of windows & doors. This means better security for you and your family and keeps unwanted intruders out of your home

No sub Contractors: We only use our own fitters paid on a weekly wage, this is very important if you want the best installation and reliability of your windows and doors.

NVQ certificate: Our fitters have qualifications i.e. NVQ certificate to prove they are trained to a high standard to fit your windows & doors

Company Reputation: We at Traditional windows have earned the reputation for excellence and professionalism dating back over 30 years. We have many installations in the south east and have many happy customers who have recommended us to their neighbours, friends and family. If you would like to

look at some of our installations we have done we can provide you with addresses near you. You can visit our showroom it is open 6 days a week Monday to Saturday

Accreditation: We are a **Fensa** registered Company, members of the **Consumer Protection Association**, **Federation of Master Builders**, **ECB**, **Bygone** Approved Installer and an **Evolution** Approved installer and most of our supplies have **BSI**, **BBA** and **Secured by Design** accreditation. Check us out on consumer websites, you can do this on the "Which" report web-site (search for "double glazing") or go to the review site <http://www.doubleglazingcompanies.com/company/traditional-replacement-doors-and-windows-ltd>

NO Pressure Selling We do not put pressure on you, to sign up on the night. We don't start with an exaggerated price only to reduce it later. We just give good honest advice and we give our best price first time, and then we go, leaving you to make your own mind up

How long has the Company been trading: The company have been trading over 30 years First as a sole proprietor then as a Limited company we have never gone into receivership at any time since the company started.
